

Ideas for The Vision VIKSIT BHARAT @2047

International Conference on Sustainability and Community Engagement

(Hybrid Mode)
16th March, 2024

Sponsored by ICSSR and Organized by Satyawati College (Evening)
<https://www.satyawatievedu.ac.in>

About the Conference

The synergy between sustainability and community engagement is essential for creating vibrant, inclusive, and environmentally conscious communities. By fostering active participation, empowering individuals, and addressing the interconnected challenges facing society, sustainable community engagement paves the way for a more resilient and harmonious future. The idea extends across various domains, including energy, agriculture, transportation, and business, emphasizing the importance of a holistic and mindful approach to development for the benefit of both current and future generations. Fostering a sense of belonging and shared responsibility, sustainable community engagement becomes a catalyst for positive transformation. The conference is a collaboration between Delhi University and ICSSR working together to provide opportunities for scholars and faculty members to present their papers on the theme of sustainability and community engagement.

About the Project

The Research Project revolves around exploring the current status of student community engagement program implementation in higher education institutions and identifying the problems and challenges higher education institutions face in implementing student community engagement programs. Know the current status of the student community engagement program initiatives in Swachh Bharat Abhiyan, evaluate their impact and success in Higher Education Institutions suggest measures for strengthening and recommend policy for HEIs for the implementation.
